# OPERATION RECORD

Hospital No. : 00036876			
Date : 2023-01-17	Surgeon : 박일호		Name : 이영재
1st Ass't	2st Ass't	Age : 32	Sex : M
Scrub Nurse	Circ. Nurse	Dept : 정형외과1 Room No. 704	
Preoperative diagnosis :		LM tear, knee, both	
Postoperative diagnosis :		same as above OA, knee, both	
Name of operation :		a/s meniscectomy, knee, both	

## Procedures and Findings

1. medial compartment  
MFC/MTP OB Gr 1/1 (both)  
MM : intact (both)
2. lateral compartment  
LFC/LTP OB Gr 2/2 (both)  
LM : complex tear / displaced flap tear (almost transected) -> meniscectomy
3. PF compartment  
patellar/Trochlear OB Gr 1/1
4. ACL/PCL : intact/ intact
5. plica /soft tissue impingement : 1/1
6. loose bodies : -/-

Under the spinal anesthesia, positioned the patient supine on the operating table. Prepped and draped as usual. Inflated the pneumatic tourniquet up to 300 torr.

1. Anterolateral portal for arthroscopy which is at the same level of the joint line.
2. Anteromedialportal for instrument just above the joint line and meniscus at the opposite site of anterolateral portal.

The arthroscopic finding & procedure were as described above.

Tissue to Path : ☐ YES ☐ NO      Drain : ☐ YES ☐ NO      Sponge Count correct : ☐ YES ☐ NO

# 결과

[Conclusion]

1. Complex tear, LM anterior horn through body

2. A 1.0cm sized ACL cyst

#### [ SONO접수 ]

(비)SONO-Echocardiogram

처방일 : 2023-01-16 접수일 : 2023-01-16 판독일 : 2023-01-16 15:20:56 판독의 : 강준혁

# 결과

[Finding]

estimated EF : 65%이상

Normal LV cavity size and systolic function

Normal LV wall thickness

No abnormal flow on color doppler

No regional wall motion abnormality

[Conclusion]

특이 이상소견 없음

00036876 이영재(M/32) - 외래 2023-01-16 OS1/박일호

(비)SONO-Lower Doppler(Both)

처방일 : 2023-01-16 접수일 : 2023-01-16 판독일 : 2023-01-16 15:23:34 판독의 : 김기욱

# 결과

[Finding]

Both lower extremity artery US:

morphology of vascular structure : 특이 소견 없음.

color doppler image 및 CW mode에서 velocity 및 wave form: 특이 소견 없음.

[Conclusion]

Acceptable US finding
